CERTIFICATE

- AWS Certified Cloud Practitioner**

PROJECTS

Aviva – Cloud Infrastructure Services

04/2022 – Present

- Implemented AWS Backup Service for critical applications, automating daily cross-account and cross-region backups from S3, increasing data protection and disaster recovery while decreasing manual backup work.
- Migrated on-premises applications to AWS, developing Terraform, Packer, Ansible, and Bash scripts for the orchestration and configuration of resources.
- Used Docker to create containers for applications, ensuring they run consistently across different environments.
- Led Bitbucket to Azure DevOps (ADO) migration, migrated IAM Deployer roles, implemented HashiCorp Vault, automated secure credential retrieval during system reboots, and reduced credential-related errors by 70%.
- Created blue-green environments for smooth deployment with zero downtime in production releases and reducing rollback time by 80%.
- Managed vulnerability fixes to ensure secure and compliant system operations.
- Built and updated CI/CD pipelines with Jenkins to speed up software deployment procedures.
- Managed IAM users, groups, and roles to provide secure access across AWS services.

PRACHI DESHMUKH

AWS DEVOPS ENGINEER | CLOUD INFRASTRUCTURE SPECIALIST

SUMMARY

Experienced DevOps Engineer with 4 years of hands-on expertise in AWS, CI/CD pipeline automation, and cloud infrastructure deployment. Proven track record delivering secure, scalable, and cost-efficient solutions through Terraform, Jenkins, and Ansible in Agile environments. Recognized for achieving significant cost savings and optimizing system performance in complex cloud migrations.

SKILLS

Cloud – AWS:

AWS EC2 · AWS RDS · AWS S3 · AWS IAM · AWS VPC · AWS CloudWatch · AWS App-Flow · AWS Route 53 · AWS Lambda · CloudFormation

Automation and Platform:

Terraform · Jenkins · python · Git · Bitbucket · Azure DevOps · Jira · ServiceNow · Assyst

EXPERIENCE

Wipro Technologies

Pune

DevOps Engineer

04/2022 – Present

- Designed and deployed AWS cloud infrastructure using Terraform supporting high-availability production systems.
- Built and maintained CI/CD pipelines using Jenkins (Groovy) and AWS Code.
- Automated infrastructure provisioning and application deployments, cutting manual tasks by 60%.
- Integrated Docker for containerized deployments, improving scalability and reducing environment inconsistencies.
- Configured CloudWatch dashboards, alarms, and log monitoring to improve incident detection and resolution speed.

Wipro Technologies

Pune

Trainee: Project-Based Learning (PBL)

01/2022 – 03/2022

- Completed intensive DevOps and AWS training with real-time projects.
- Developed automated deployment scripts using Python.
- Collaborated with cross-functional team members by actively participating in Agile ceremonies at Wipro Technologies.

EDUCATION

Amrutvahini College Of Engineering, Sangamner

Sangamner

Bachelors of Engineering in Electronics and Telecommunication with Honours in Data Science.

08/2018 – 03/2022
